# BRAND STORY

In a world that never stops moving, we understand that your journey is more than just a destination, it's an experience. At American Tourister, we've always been committed to crafting backpacks that embody the spirit of the young and the thrill of fun.

This year, we're taking a leap forward, pushing the boundaries of backpack design and functionality.

Our 2024 collection is a testament to relentless innovation and sleek aesthetics that redefine what a backpack can be.

Sustainability isn't just a buzzword, it's woven into the very lining of the collection through RECYCLEX™, breathing new life into discarded plastics.

When it comes to comfort, AT ERGO ensures that your backpack feels like an extension of you. It's a companion that supports your every move.

But that's not all. Your backpack should be as unique as you are. AT YOUNIQUE allows you to make every bag distinctly yours.

Our backpacks are engineered to keep up with you every step of the way. Each backpack in this range is a story waiting to be written, a canvas for your unique adventures.
